

Rahaf Fallatah

Full Stack Developer

rahaf77553@gmail.com | (+966)507897807 | Makkah | Saudi Arabia | Open to relocate to Riyadh or Jeddah | [LinkedIn](#) | [GitHub](#)

Summary

Performance-driven Full-Stack Developer with a Bachelor's degree in Information Systems and hands-on experience building end-to-end web applications using React.js, JavaScript, TypeScript, Django REST Framework, and PostgreSQL. Specialized in designing responsive frontend interfaces, building scalable backend APIs, and integrating third-party payment gateways. Experienced in managing full development cycles from database design to production deployment.

Experience

Frontend developer (intern), Techwin	12/2025 – Present Makkah
- Transformed Figma designs into 9+ fully responsive web platform screens using React.js, Tailwind CSS, and Ant Design across multiple device breakpoints. - Built 7+ custom React hooks to handle POST requests, client-side validation, and error handling, reducing runtime bugs across the application. - Architected client-side state management using React Context API to manage complex user flows seamlessly. - Streamlined deployment workflows using Netlify CI/CD, automating build and release processes.	
Software Engineer, SDA & General Assembly	08/2025 – 11/2025 Remote
- Developed full-stack web applications using React.js on the frontend and Django REST Framework on the backend. - Designed and tested 15+ REST API endpoints using Postman, ensuring seamless frontend-backend data flow and integration reliability. - Collaborated in Agile sprint environments to debug frontend views and enhance client-side authentication workflows.	
Full Stack Developer, Tuwaiq Academy	02/2025 – 05/2025 Riyadh
- Built 3+ full-stack web applications during an intensive 300-hour program using HTML5, CSS3, JavaScript, Bootstrap, and Django. - Implemented a complete client-side checkout flow integrated with Moyasar Payment API, handling redirect responses and updating UI states dynamically. - Managed version control and resolved merge conflicts using Git and GitHub during collaborative sprints.	

Education

Bachelor of information systems, Umm Alqura university	2020 – 2024 Saudi Arabia, Makkah
---	-------------------------------------

Skills

- Core Frontend:** JavaScript (ES6+), TypeScript , HTML5, CSS3, Responsive Web Design
- Frontend Frameworks:** React.js, Next.js , Tailwind CSS, Bootstrap, Ant Design
- Backend Frameworks:** Python, Django, Django REST Framework
- Database:** PostgreSQL, Prisma ORM, REST API Design, JSON Parsing
- State & Architecture:** Context API, React Hooks (useState, useEffect), Component Lifecycle
- Tools & Workflow:** Git, GitHub, Postman, Netlify, CI/CD, Agile/Scrum
- Payments & Integration:** Moyasar Payment API, Third-party API Integration

Projects

- **Personal Project - Lavendra**, (Role: Full Stack Developer) | in Progress..
 - **Tools:** Next.js, TypeScript, Ant Design ,Tailwind CSS, PostgreSQL, Prisma, Neon
 - **Description:** Building a production-level salon management system using Next.js and TypeScript, targeting real-world deployment as a primary portfolio showcase.
- **GA Project - Aniverse**, (Role: Full Stack Developer)
 - **Tools:** React.js, Django, PostgreSQL, Postman
 - **Description:** Built a full-stack anime community platform with a Django REST backend and React frontend, handling dynamic states for userposts, interactions, and comments with full CRUD functionality.
- **Tuwaiq Academy Project - Lafesta**, (Role: Full Stack Developer)
 - **Tools:** HTML, CSS, JavaScript, Bootstrap, Django, Moyasar API
 - **Description:** Developed a full-stack dress rental platform with a Django backend, implementing a secure checkout payment journey usingMoyasar's redirect handling logic.
- **Techwin Project - Maqas**, (Role: Frontend Developer)
 - **Tools:** React.js, Ant Design, Tailwind CSS
 - **Description:** Engineered 9+ production-level responsive web screens for a tailoring management platform, ensuring pixel-perfectUItranslation and custom validation logic.
